Fvery hear and every minute it is closer to us und every hear and every minute we are less secure in couse quence of it

closer to us and every hear and every manuer we are less secure in couse quence of it.

I hope that those who have the ear of the agoverles now directing and controlling the government, in reis to the exclusion of the fessibility branch may exert that influence so that if that his not been done which ought to he done for our protection it may be done without further delat.

After several hours of wrangle. In my which all sorts of amendments were offered end voted down and many spir hes were made, the vote was the august like Cannon substitute to reduce the number of hatticehips to one and to merense the torpedo boats and torped boat destrouts to 12 cach it was defeated T5 to 124.

After laderwood (Dem lin) offered an amendment appropriating \$40 m 00 for the establishment of a governmentar more pility factors. He did not think it proper with a war cloud over the country to criticise the price tixed in the bill for armor plate but his annualment looked to the future Before the brittle ships authorized in the bill were complete the government could save the extention to which it was now subjected He went bracity into the results of the government suvestigation if the cost farmor plate to show that the manufactures had muliced the government is an excellent to \$400 mer ton with die for the aum adment was railed out on a point of order.

order

An amendment to reduce the purce of armor plate to \$500 per ron was defected. This completed the bill and it was reported to the Hause and passed. Then at 6 P. M. the House adjourned until Monday.

THE STATE

Washington And I in the open so son of the Sente today Mr Chandler (N H) called up the resolution he in troduced vesterd to morang requiring the President to send the Cubin consular correspondence to the Senate and at his suggestion it was referred to the Committee on Loreng Relations. In mediately afterwards, however he in troduced another resolution which went over, calling upon the Secretary of State for the same information. After the passage of a few bills the Secretary of the afternoon and being devoted to a thermoon of the wisdom of purchase 1 the Danish West Indica silands.

At 5 31 P W the Sente went from secret legislation into executive session and soon afterward algourned until Menday.

THE SENATE SILLATION

[Spect Despatch to Whit and to rist]

Washington, April 1 The Senate has adjourned until Manday like Previdents message won't go in until then. The bill for the purchase of the Danish Islands won't be passed as it is evident that cannot be passed without long debute.

NAVAL PREPARATIONS

Washington, April 1 The fiving squadron is to remain in Humpton Real for the present at least. This announcement was made late this afternoon by Secretary Long and set at rest the current reports throughout the day that a movement of the squadron was minuted.

not ement of the squadron was minuted. The Secretary stated that the department believed the rendezvous of the quadron was the most available one rom which the slaps under Commodous Schley could operate in cirrying out the surpose for which it was formed, that is he protection of the North Atlantic and board. He added that no order had been issued to Commodous Scheet and hat none were in immediate contemption.

In the various phases of the situal in today the fiving squadron stood out prominently, both as a center of public interest in connection with a monator lers for its sailing from the rolds and as a matter of consideration by the desirable.

APPROACH OF SPANISH TORPE DO PROTILLA

DO FI OTILLA

It is stated on reliable authority that he department discussed the question of releging the ships to sea presumable bough not officially so stated in councient with the approach of the Spanish orpedo flotilla which was en route for it of theo. It has been an open secret that the relation of the Spanish flotilla with approach of the Spanish flotilla with apprehension.

proach of the spanns a perchanson
Perchanson
After considering the matter, however, it was decided that no orders would be assued looking to the movement of the quadron. While the decision is under tood to have been based primarily upon he fact that it would be unwise to its move the ships from their present visit.

PIN WEDNESDAY AND SATURDAY EVENINGS.

STATE JOTTINGS.

A land slide on the track of the Sandy

A land slide on the track of the Sandy River railroad took place Tuesday foremon, near the grade of Maplewood station. It was caused by the frost. The morning train from Phillips was deliyed for an hour and a last.

Beginning today the Boston & Maine will run eleven trains each way daily between tyok Beach and Portsmouth. The coming of the electric road between those points has bought this about and it is now a case of steam rs. electricity on the York Beach line. The B. & M. fare will be twenty-two cents, three cents less than the electric road fare. The probability is that the electric people will reduce theirs to twenty conts and in that cases at the steam road fare will go down, it is said, to eighteen or lifteen cents.

The Gardiner Improvement Society has looked over its work accomplished the past year; and has good reason to congratulate itself on the results of its efforts. For one thing it has had collected and destroyed about 500,000 caterpillar "belts" which means goveral milion—or trillion—less squirming crawling when the leaves on the trees this summer. The society is now preparing for the improvement of the appearance of the city. Other cities please copy.

THE STANDPIPE OBSERVATORY. The new standpipe on Thomas Hill, or rather the wooden building enclosing it, is approaching completion. The structure covering the sides is all up, and steel trusses which will support the roof nd upper floor are being put up. There will be twenty-four of these trusses, all branching out from a drum located over exact centre of the pipe. After the roof is on that and the sides of the structure will be shingled, it being estimated that 225,000 shingles will be required. The sides will be painted gray, the top slate and the building will ince two coats of oil on the interior to protet it from the dampness of the pipe. Major James M. Davis is erecting the standpipe building. The view is something al-most beyond description, with grand old Mt. Katahdin on one hand and Mt. Waldo, nearer home, besides the Brewes hills whose many sides of brown and purple made a scene of great loveliness!
On a clear day the White mountains are also visible. On the floor there will be a love tribble. On the floor there will be a love tribble. BE SURE AND CALL ON THE also visible. On the floor there will be a also visible. On the floor there will be a walk fourteen feet wide around the top, which visitors who climb the stairs. which go up between the pipe and the wooden structure, can view every part of the city. The pipe will be ready for water in about two months.

"I shall use my influence with any one suffering as I did, to have them use Lydia E. Pinkham's Vegetable Compound."

Our barber, Mr. Clark,has found his present quarters too small and has rent ed Frank Tibado's store.

OLD FASHIONED PRIZE FIGHT. New Britain, Conn., April 1. A prize fight of the old fashioned variety without gloves is said to have been pulled off in barn on the Berlin road, about three miles south of Middletown, shortly after miles south or Middletown, shortly littler four o'clock this morning. It is claimed that 20 people put up \$10 each to see the fight. Billy Sanderson, of Norwich, and Billy Bridger, alian "Brown," of Anusterdam, N. Y. were the reputed principals. The fight lasted for 18 rounds, when Bridger was put to sleep. Both man were badly punished.

COMMISSIONER'S DECISION.

Engineer Barker Not Obeying nals (auses Accident on band) River Railroad

Augusta, Me., April 1. The ratirond commissioners today made public their décision on the cause of the accident at the crosing of the Maine Central railroad and the Sandy River railroad on Decemher 20, 1897, at Farmington, when two engines, one of each road, collided and Wm. S. Barker, engineer of the Sandy River railroad engine, was killed. They bleme Barker, as he did not obey signals and they remark on the utter lack of discipline in obeying the signals in the Farmington railroad yard,

BISMARCK 83 YEARS OLD. Friedrichsrube, April 1. Prince Otto rendrichsruhe, April 1. The Court von Hismarck today/celebrated the Sard anniversary of his birth, giving a banquet to 22 guests, who had previously inspected the birthday gifts. The Prince was in excellent spifits.

WOODFORD IS PREPARING TO LEAVE. London, April 2. A special desputch from Madrid says United States Minis-

ter Woodford is making preparations to leave Madrid immediately in event of a diplomatic ropture. FLEMING'S RESOLUTION.

Washington, April 1. Representative Fleming; of Georgia, has introduced a resolution directing the Secretary of the Nayy to inform the House if the document printed by the Search as the Fresident's message and evidence on the Maine incident contains all the evidence embruced in the report of the mavaicourt of inquiry now on file in the Nayl Tepariment and if hot to transmit to the House a copy of the omitted evidence.

PUBLIC DEBT STATEMENT. Washington, April 1. The statement of the public debt issued today shows

of the public flebt issued today shows that the debt at the close of business on March 31, less cash in the treasury, was \$1,008,716,351. In decrease for the month of \$1,387,765. The debt is recapitulated as follows:
Interest bearing debt, \$147,366,680. Debt on which interest has censed since maturity, \$1,827,670.
Debt bearing no interest \$386,074,099, making a total of \$1,235,088,419.
This, however, does not include \$585,254,933 in certificates and treasury notes outstanding which are offset by an equal amount of cash in the treasury is classified as follows:

Gold, \$210,803,334. Silver, \$512,432,534. Paper, \$97,818,324. Bonds, disbursing officer's bulances, etc., \$32,044,274. This makes a total of \$853,798,468.

This makes a total of \$553,708,468, against which there are demand louis outstanding amounting to \$627,681,525, leaving a net cash balance of \$226,106, 945.

A CANAL BOAT SUNK.

New York, April 1. The small freight steambout Eleanor Peck, of the New Haven line, collided with the fulton fer-

steambout Eigenner Feck, of the New Haven line, collided with the Fulton ferryboat Somerset and a canal boat in tow of the Al Young off piet 23, East river, today. The canal boat and insendently and one of her crew was drowned. The Somerset was damaged sectionsly and the Peck had a den in her bow and other slight injuries.

The Peck was proceeding down the river at a rapid rate when the ferryboat crossed her bow. She struck the Somerset annidships on the port side near the paddle box. Then, the Peck drifted away from the Somerset and ran into the canal boat. Then the Peck struck the canal hoat amidships.

Captain Carap of the freight boat said that the collisions were caused by the pilot of the ferryboat, who, he said, paid no attention to the Peck's signals.

"My boat was being carried down stream rapidly by the tide and I signaled to the Somerset of sow down. Instead of doing this the pilot proceeded on his course. After my boat slipped on his course. After my boat slipped on his course. After my boat slipped any from the Somerset the tide carried the Peck against the canal boat and sank her."

NOMINATIONS CONFIRMED. Washington, April 1. The Senate has confirmed these mominations: Campbell L. Maxwell, of Ohio, to be consul general at Santo Domingo; Judson E. Lyons, of Georgia, to be register of the treas-

A new woolen mill company is being organized by Messrs. T. W. Beattie and J. D. Beattie of Oldtown. They are at present connected with the Oldtown Woolen Co. The plan is to build a mill on the Bodwell Water Power Co.'s property at a point on the river just below the resent site of the Oldtown woolen mill. The machinery for a four set mill has al-ready been purchased and it is the intention to have a mill erected large enough to add two more sets as business war-mats. The board of trade at Skowlegan is after this new mill and has offered to orect a building in that town for the company, exempt it from invation for 10 and take a number of thousands So Says Mrs. Mary Rochlette of of dollars, worth of stock besides. The of dollars, worth of stock besides. The Mesers, Bettile wish to build the mill in lidtown, but will await the action of the city government regarding the mat-ter. The stock is about all subscribed. ter. The stock is about all subscribed. Nothing remains for Oldtown to do but to exempt the plant from taxation for ten years. It is said that the new industry will pay out \$30,000 a year in wages and give employment all the year round to nearly 100 people.

An accident at the Venzie Works this orning ut 2.30 caused a shut down of the electric lights and loss of power to the Whic's electric motor, delaying work in this office about an hour at the ousiest time of the night.

CONFECTIONS Interesting'y Priced.

DRAPERIES? The Horrors of Rheumatism.

A woman's account of torture which lasted three years; of her struggles against the dreadful disease, and the good fortune that crowned her efforts.

Such suffering as rhoumatism causes the victims upon whom it fastens itself is almost unenderable.

Sufferen from the worst types of this terrible dueate will supply the missing horors in the following story from real life.

Those who writhe under milder forms of rheumatism will be able to imagine the feelings of the tortured victim.

The only justification for making public such heart-rending details is the fact that the fesson taught will be helpful to others, pointing the way to renewed life and health to every sufferer from theumatism.

The story is told by a woman. Her name is Miss. Caleb Fenly; she lives in St. Paul, Ind.

This is her account:

This is her account:

"I am a farmer's wife. I believe my frequent exposore to the weather caused my terrible attack of rheumatum. Damp weather always aggravated st.
"My limbs would begin to swell at the

"This swelling would begin in the night, at times. I would awake in agony.
"Daylight would find my limbs purple in color, swellen to twice their natural size, and so reaked with pain I could not bear

and so racked with pain I could not hear to touch them.

"My right arm and both legs were so drawn as to be almost useless."

"My skin became dry and yellow.

"At times my limbs would pain as though milkons of needles were pricking them.

"Again they would be numb and I

could not feel a needle thrust into my flesh.

"I was confuned to the house three years, unable to walk nearly half the time.

"After those three slow years of agong, during which I spent probably \$2,000 for treatment and tred a dozen doctors, I gave up hope of any release from pan, but death.

"I was curnd, completely cured, by Dr. Williams Fink Fills for Pale People. They alone caused my recovery.

Williams Fink Fills for Pale People. They alone caused my recovery.

"The list does gave me appends.

"After the second does I siept soundly, the list time wothen a year.

"I sent for a dozen boxes. By the time I had taken the contents of eleven boxes I felt enlurly well.

"The doctor and I was cured. He was greatly impressed, and since then he has prescribed Dr. Williams Pink Pills for Pale People for many of his patients."

Mrs. Fenly, together with her husband, made allidavit yo the exact truth of the foregoing account before Notary P. N. Thomas.

The cure of the severest cases of these-

going account before Notary P. N. Thomas.
The cure of the severest cases of rheumatism by Dr. Williams' Pink Pills for Pale People has occurred in every state in the Union, and its power in ordinary cases is proportionately greater.

These marvelous vegetable pills go directly to the seat of the trouble. They build up a new cellular structure in the diseased parts by eliminating poisonous elements and renewing health-giving chemical forces in the blood.

They are for sale by druggests everywhere; for 50 cents a single box or \$2.50 for half a dozen.

AN OPEN LETTER To MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK. I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts,

was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of hat Hilitain wrapper. This is the original "PITCHER'S CASTORIA,' which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of har Helitics wrapper. No one has authority from me to use my name ex-

BUCKSPORT NEWS.

Stage Drivers Had a Hard Time in the Heavy Storm.

Foresters Moving Into New Hall-Bucks-ort Gun Club Getting Ready for Fractice-Other Notes [Special to Whig and Courier.]

Bucksport, April 1. Electrician Emer-son has just finished wiring the hall over the N. T. Hill store for electric lights. The Foresters have already moved their belongings into the rooms fitted up for

Miss Florence is confined to the house by a severe cold.

Thursday was a hard day for the stage

by a severe cold.

Thursday was a hard day for the stage drivers. The Costine and Orland mail due here to connect with the 6.15 evening train for Bangor did not arrive at the Bucksport office until after 8 o'clock. Capt. Nicholson's newly purchased schooner, the Gen. Coggswell, is receiving a carge of potatoes from the storehouse.

The band boys are putting in some thorough practice at present. They are bolding two meetings each week and the attendance has improved since the uniforms have been talked up. By Memorial Dut the boys will be in fine trimand their first appearance in their new uniforms will be quite an event for Bucksport.

The Nicholson schooner Edgar Poster is on the way from Philadelpla with a carge of coal for the Electric Light Company.

The town fathers ever alert and mindful of the best interests of the town, have decided to place an electric light on Central street at the top of the hill between Franklin street and Chas. Bogg's store. This will be a great convenience to the people living in the vicinity.

Several members of the Bucksport Gun as soon as the weather will permit a range will be selected and a shitable building erected.

At the meeting Saturday evening the committee on constitution and hy-laws will report and the organization perfected.

The October Club will hold a meeting at Kindergarten hall Monday evening at

will report and the organization perfected.

The October Club will hold a meeting at Kindergarten half Monday evening at 5 o'clock. The literary programme will be under the direction of Misses Charlotte Woodman,Jennic Hooper and Mary Parker.

Parker,
After the literary programme a supper vill be served in charge of Mrs. H. E. Snow, Mrs. G. P. Homer and Mrs. G. H. Emerson.

SEMINARY NOTES.

W.A. Beattre of the University of Maine, a former E. M. C. S. student, came down Friday evening to attend the

joint literary societies.

Mr. Charles Chuse, of Boston, arrived by train Friday evening to spend a few days with his mother, Mrs. W. F. Chuse.

The social meeting of the four literary societies will be followed by refreshments served in the dining room.

SANGERVILLE NEWS.

Many Notes of Interest From a Lively Town-[Special to while and Courier.]

Sangervile, April 1. Mr. H. O. Camp-bell was in Bangor Friday attending a meeting of the Scottish Rite. The 17th and 18th degrees were conferred upon

and 18th degrees were conferred upon at the April meeting of al Union, I, hich will be hat Greatworks, and Charles E. Rackliff esidences connected with ne.

deilling the children of vert school for the first school for

SEBEC.

Notwithstanding the severity of the winter, Sebec village has been a busy place this sensoi. At present fifteen or more men are hard at work rolling logs into Sebec stream to be in readiness for the spring drives. The spruce goes to the Howland Pulp Co., the pine to the the Spring derives. The sprince goes to
the Howland Pulp Co., the pine to the
Bangor saw mills, and the poplar to the
Boston Excelsion Co. There will be more
tumber put into Sebec Stream this wanter than for several years, most of it
coming from Burnard. The principal opcrators are A. H. Gould and Harbert
Ladd with Fred and Edward Ladd clest
seconds, while the McNauchton Bros.and
B. W. Downs handle smaller lots. The
tumber has nearly all been cut on land
owned by George J. Babson and associates. Barnard has long held the equatation of being a place where no operator could immber successfully, but this
season's work shows that a hastler can
succeed here as well as in other places.
There is prospect of an extensive cut another winter, and in all probability the
Bangor & Aroostook Endiroad will put
in a new siding on their Katahdin Iron
Works branch and that there will be
large shipments from that place next
winter.

A radical change has been made at Bar

A radical change has been made at Bar Harbor in the old Kebo Valley Club golf links so-called by conriesy. A large part of the work of clearing and of grad-ing the ground, including the thorough ing the ground, including the thorough draining of the course was done last autumn, the work of seeding being left until suring. The amount of work that will be done through the green, and the making of such artificial bunkers as are desirable, is dependent on the amount of money subscribed by lovers of gulf, and by those who are interested in Mi. Desert Island. The amount subscribed this far, about \$2000, is not enough.

d. of Orono, will preach Sunday afternoon at 2 wa hall. This change is announced in the Star schedule: Roote 1121. Showhern to fraser will hold services id East Eddington next realist church Sunday. Sunday school 1.15, Y. Sunday school 1.15, Y. Inbject. of morning disught to Sit Down to the

shington, Apr. 1.—The members of Iouse were all in a state of sup-descripment this morning. Everywas engerly awaiting news from id. A prominent Republican of the gave it as his opinion that the ion was more critical today than it and becom-

e reply of the Spanish mini*ter re-by the President last night," said

by the President last night," said a great nation cannot be forced k down in a day." Republican member of the House in affairs committee said that the for the release of the reconcentrational or the release of the reconcentration of the besatisfactory and addediere is no doubt what the ultimate must and will be. Cuba will be an independent. I think it will rewar. I do not see how Spain can der the island without a resort to ties. But there is a much better standing dodry between the Presand the Republican leaders than has been. Some of the more radical have talked with him are satisfied President will insist on what the dealanding—the absolute modered fuba."

Led galteres are the regular achiment for the sessions of the house se eveiting days, and today for hour the session convened every inchilable space was taken, ard hundesieged the doors unable to gain ion.

besieged the doors unable to gain son.

Boutele chairman of the Naval tree, desired to go ahead with the appropriation bill despite the fact near the rules this was private bill fie explained bitefly the argent dy of getting the bill through at Ai very significant incident ocwhile an attempt was being made at an afrangement to postpone prisill day antif Tuesday, speaker himself seemed to hesibout asking the consent of the whereupon Mr. Bromwell (Repiked if Ruesday was set apart for bills whether it would interfere report from the foreign affairs tree, certainty would," repiced the

certainly would," replied the r promptly, m I object," shouted Mr. Brom

m I object," shouted Mr. Brom equently be withdrew his objection he understanding that Tuesday be prysate bil day provided the affairs committee had no report to the House naval Mil was then taken up. King (Dem. Wash) made a point er against the provision for new hip and torpedo boats. It was do in the chair.

Cannon, chairman of the approximative, offered a substitute paragraph of the bill providing see battleships, six torpedo boats x torpedo boat destroyers. The interpretable of formal committee, offered as a substitute paragraph of the bill providing see battleships to the provided for one battleship to 3,000,000 exclusive of immument torpedo boat destroyers and 12 boats, fo gost not exceeding \$4.-1.

annon supported the amendment. ERVENTION IS DE FACTO.

ERVENTION IS DE FACTO.

id, Angil 1. The most important at on the situation this afternoon of the ministerial El Liberal, may be looked at as undoubtedly ag the position of the Spanish governor the property of the paper says: lave done all we can to remove a for a influere. If President Merefuses our concessions we, with conscience, will awant any trials may come and defend our honor rights. The entire nation suphe givernment. This was the got resterday evening's enthwished hond poor are working to No one asks whether the sum d goes for warships. It suffices that the sum of the past three years. There e no thore debating or baggling rupture is preferable. Incervenlent the total control of the past three years. There e no thore debating or baggling rupture is preferable. Incervenlent the even now. We desire and for peace. But the limit of our ferninge is at an end. We will be exgressors; but we will defend his with our traditional is nacity very.

HANDS OFF CUBA?

d. April 1. The afternoon pa-vote much space to yesterday's at the Royal Opera. They all see in it an 'exemplification of riotism which will sweep the and means hands off Cuba.

NEW YORK FASH.OKS.

Tucked Parasols; Black Spangled Nets; Spangled Bodices; Easter Dresses; raster Millinery.

The parasol which can be made to do duty with various costomes is the one selected by persons of moderate means a sort of non-comittal affair, and this grade is peculiarly acceptable this season. grade is peculiarly acceptable this season, coming in all plain colors with a border of a lighter or darker shade of the same color, with a row of hemsitching between. The "canopy top" is a new shape, but not an all-absorbing one Great population in plain colors, with heavy looking stields, and this on how on the handles. A contrasting band at the edge, and another near the top composed of four or five tacks; or a cluster of tucks nar the edge, or clusters throughout in plain sike parasols, indicate the widespread fancy for this trimming.

HOWS OF NARROW SATIN BIB-ROW SOFT NARROW SOFT NA

in one or two or colors as well, completely covering the packed, or a similar border around the effect is quite attractive. On planded parasols, with brocade figures over the plaids, such a border is also used, of course combining the two most prominent colors. As a result of the partiality for white and black, many parasols on that order are shown, and numberless varieties of white ruffied chiffon or whete such both plain or with knotted fringe please these who purchase a parasol for every costume. Duchesse and point face always remain in style for the fertunate few who can purchase such costly accessories, and plamer but very attractive white parasols have rows of one white lace insertion around the edge.

PLACK SPANGLED NETS

BLACK SPANGLED NETS

tre as handsome as grenadines, and at a casual glance they may appear heavy. a casual glance they may appear heavy, but spanges are so light and the foundations so strong that they will stand a great deal of wear. They are shown in circular skarts less than have yards wide, sometimes in "all over" designs above a border, then again elaborate designs are on the front breadth only, while the back is comparatively plain. A favorite and expensive figure is a fection effect at the front and large figures at each side. These, however, are conspicuous, and a fine "all over" pattern is preferable. A corrage piece to match the kirt comes with the most expensive grades but that is not a necessary.

A PHETTY NET SKIRT

A PRETTY NET SKIRT

may be had for about \$20, and any on with tiste and ingenuity can spangle a bodies in harmony, or they can be bought bodies in harmony, or they can be bought for \$5, always with square or round neck Black infeta silk is the proper Iming, and made-up dresses begin at \$125. Expense is diminished by having the spanished, not reach only to the top of a deep Spanish deunce or black heet or another expedient is to have a ruffled Brussels nelower skirt and back, with a spanishe net "appon front." Such costumes, however, never look like the genuine thing.

AMONIX NEW EXSTREM CONVEY

AMONG NEW EASTER GOWNS the tailor-made are conspicuous from their elegant simplicity; one of gray broadeloth having a triple skirt with the broadcloth having'a triple skirt with the edges falling about any melies apart, and finished by stitching. The skirt is really open a little at the left side, but foldower and is edged with stitching. I lazer jacket his revers slashed at the shoulder with Medici collar at the bacilioth faced with white satin, upon wherews of crimson velvet are run, and furfront of shirred white Laberty silk. Second imported sort is of light brown covert cloth, with two narrow brown satin bands stitched on the plain skirt bear a very small "apron front," and form a very small "apron front," and form a very small "apron front," and offer a very small "apron front," and also thin the blazer jacket and cuffs, lievers and high collar are faced with standing tacks of white satin, letwice, which narrow black velvet is run, as each, blue silk front affords contrast and a tucked white lace cravat edge by which the gives completion.

A THIRD HANDSOME SUIT

of pinkish grav drap d'ete, has a flat or bey the Simplest

aw of Nature

The Walts and Looped design, edged with white sation and stitched on, comin to the walts on the right side and countried around the skirt about half was down, disappearing under a fold in the left side. The walts is blouse from atth loops at the center, matching those arth, Bronchitts, Asthma and Consumption.

Jerush side. A round, tucked chiffs to be and collar of satin and line impart the necessary finish.

cial explained yesterday that this falling away was due to the fact that more men bership ferms expired in March than in any other month. In like manner, the New York State membership has fullen away from 27,000 to 25,221.

ATHLETIC NOTES.

Not satisfied with having apparently arranged details for the big boat race between Cornell, Harvard and Yale at New London, and thereby having relieved a suffering college world, the managers of the crews have clashed once more over the date of the much-talked-of event.

F. A. Abell, treasurer, of the Brooklyn Base Ball Club, in company with President Ebbets, pald a visit to Allaire, N. J., on Monday, where the Brooklyn players are training under the supervision of Manager Barule. Abell was particularly interested in the work of Jones at short As at present constituted the Brooklyn team, according to Abell and Ebbets, is at least 50 per cent stronger than that of last year, for they expect Jones to pan out in his new place and and thereby increase the batting ability of the team by making it possible to play both Lachance and Tucker.

President Freedman, after viewing the New Yorks at practice on Lakewood soil, announces with apparent confidence tha^t the league pennant has already been won Arrong the indices now being considered by Capt. Joyce's experts. The fact that the least of the latter of the latter had by the latter had been considered had latter experts as Tenney. Doyle and Tucker, and he also believes that Hartman, the new third baseman, will leave Collins, Wallnee and McGraw far behind in the records. So far as Grady, the new atcher, is concerned, the local magnate lectures that he is unquestionably the best in the business, not excepting such tried experts as Bergen, Robinson, Petz and Zimmer. Freedman points with pride to the great pitching corps, and states emphatically that it is "all over but the shouting." Meanwhile, the other terms in the lengue will try and worry along for the next best places ob-

tainable in the race
In put hing the New Yorks are more formidable, as they possess a corps of twirlers who, for concentrated affectivement, not including ness will be hard to excel this year. The eranks, however, will go on speculating just the same, for base ball as conceded to be mighty uncertain.

A WOMAN'S VALUABLE AID. The submirrine boat, Holland, which i

now being examined by experts with a view to 1's adoption by government, should it prove all that its inventor Gains, owes its existence in a large measure to one of our summer guests, Mrs. Isane Lawrence, of New York, says the Bar Harbor Record.

Mrs Lawrence has been several times in Cuba this winter. She has seen the starting recencentrados, and burns with patriotic zeul whenever the question of American intervention is discussed. When Mr. Holland was seeking about for some one to back him in his experiments with the submarine wonder that has been diving in the Killvon-Kull renas eeen diving in the Kulton-Kul Re-cently, he ran across Mrs. Lawrence. Here was her opportunity to help her country. She saw that the Holland boat, if it could be made a success, would fur mish a new arm to the naval service more terrible than the monitor. She bought stock in the company—lots of it—and talked it up so eloquently that a number of her triends also invested in the com-pany Mrs. Lawrence is the heaviest

of her tracins also invested in the company Mrs. Lawrence is the heaviest stockholder.

But her interest did not end there. She pard frequent visits to Forth Amboy, where the little vessel was building, and watched the progress of the work with keen eyes. She is the only woman that has ever been allowed on board.

Mrs. Lawrence is a popular young matron of society. She was Miss Lee Gwynn, and is a daughter of the late Nicholas Gwynn, from whom she inherited a large fortune. Mr. and Mrs. Lawrence have spent several summors at Bar Harbor and at Socrecto.

CRISP CLIPPINGS.

13c Danville, Ind., has a young man of 18 10c who has had more matrimonial experi-ence in one year than any much-married man of Cheago. His name is Benson Engers. His first wife, whom he married in March of last year secured a divorce. Engers then took another wife, but she left him, and, thinking her dead, he married a third time. Then No 2 arrived and such for a divorce, and the union with No. 3 was declared null and wid file became legally separate from No. 2 and has just married No. 3 again.

Girls employed in the crape industries are under a curious contract not to engage in any housework after their hours of labor. The reason is lest their hands should become corrected militaries for the delicate nature of their employment.

Grasshoppers attain their greatest size nan of Cheago. His name is Benson

delicate nature of their employment.

(Irasshoppers attain their greatest size in South America, where they grow to a spread out five inches.

BROWN VS. BEAN.

Settled in Favor of the Complainant, On Friday foremoon in the library at the Court House the case of Brown vs. Bean, in equity, before Chief Justice Peters was finally settled. The chief justice ruled in favor of the complainants, and accepted the report of the master who first beard the case, Matthew Laughlin, Esq.

The case was a bill in equity between Byron B. and Ann E. Brown, and William M. Bean, all of Oldtown. The cause of the action lay in a note of the city of Oldtown for \$1,700, pledged as security by the Browns to Bein, of another note of \$550. A receipt given by Mrs. Brown to Bean, the defendant, figused prominently in the case, which has been hanging for many months. The bill in equity was | brought to redeem the

P. H. Gillin, Esq., and J. F. Gould, Esq., were for the complainant, and G. K. Sewall, Esq., and T. H. Appleton. Esq., for the respondent.

The respondent, Bean, contended that the \$1,700 city note was holden as collareral security for other notes which be had against Byron B. Brown. After a full hearing before the chief justice. the latter decided in favor of the comholden only as collateral security for the payment of the note for \$550, and that the receipt which Beau obtained from Ann Brown was obtained by fraud and

MAINE BRICK INDUSTRY.

Mune is a great State for bricks, and uditons are made about Bangor and other places in the State annually. a good thing for the brick industry of the United States," said a leading manufac-turer, "that competition is cut off about every 100 miles. It is not profitable to ship bricks by train any further than that distance. This gives brockmakers a chance to cover their own territory and cover it well. For the same reason brick cannot be exparted "The brick industry is divided into spe-

cial lines just as other industries are di-valed in this country. One factory makes vitrated brick for paving another turns out sewer brick and others building brack or ornamental brick, light colored brick or ariamental brick, light colored brick and fire brick. New concerns are springing up everywhere, but the great-est recent dayances in the United States have been in vitrified brick for paving purposes. The present output in the United States does not nearly equal the demand. Brick for paving in 1897 contracts were shapped as late as January 15 last, and several large contracts, for m stance, in Philadelphia went over simply because the contrasters were anable to get the brick in time. The West is still the great stroughold of the virthfed brick industry, the leading centres being Canton, O., and Galesburg, H. This industry has developed 500 per cent in the last ten years. Virthed brick are made by machinery. Brick paring is put down at from \$1.34 to \$1.75 per square yard. "The manufacturers of building brick are also bosy. The year 1897 was very good and there are very few hard brick on hand anywhere. The tendency of the trade is toward cheaper prices all along the line. Possibly the largest building brick appears to the hand-made because it is harder and ought to wear letter. Pennsylvania alone turned out 453,000,000 building brick in 1897, worth about \$6,017,778. tracts were shipped as late as January 15

"TUFF" ALL AROUND.

The individuals of this town who "as pire" to teach in its school buildings.-and we think the very sight of some of them would knack their honest ambitions dead—are to meet in our palatial school indiding on the west said next Monday and spell and parse and figure And if they can pass a credible examination, sitting on those benches, and walking over that floor, and gazing at those walls and ectings, they will have courage and nerve chough to teach a pack of monkeys in a a African jungle. We believe in environment as an educational factor; and feel better when school rooms are neat and pretty. We send our children from neat and tidy homes into school buildings that some western farmers would think hardly fit to raise a hiter of pirs in. We thusk our school board is putting the teachers to a severe test to start with. of them would knock their honest ambi-

SEASON OF ENGLISH OPERA.

of the season of English opera announced by Mr. Engene Thompkins to begin at the Boston Theatre on Easter Monday, April 11. The extraordinary cast of leading ngers has attracted much attention. Not the least important, in tike fushion, is the list of operfit announced—on the one hand, the selected master works of the best known writers of grand opera, and upon the other a series of operating gens which have not been heard in Boston for many years. It is the plan of Mr. Thompkins to present each week a light and a grand opera, the one alternating with the other. Most important in the general scheme is the scale of prices which Mr. Thompkins has adopted, and which at no time will be deviated from. The entire orchestra will be reserved at 75 cents, the orchestra circle will be 50 cents, the family circle 25 cents, the gallery price will be 25 gents, and the general addission will be 50 cents. The subscription list has been growing steadily for the last week, and the list embraces narly all the foremost names is Boston's mussical, literary and artistic circles.

OPENING OF NEW YORK EAST CONFERENCE.

meeting adjourned.

New York, April 1. The Rev. W. T Hill at the opening of the New York East Conference, Brooklyn, today pray-ed that the relations now existing be tween Spann and Cuba might cease and that the sufferings might be brought to a close and peaceful relations be brought about Preaching the prayer in the church the Rev. G. E. Stroteridge con-ducted prayer services in the Sunday school room. When Bishop Mallaheu took his seat on the platform the church was comfortably filled with ministers and was, contortably filled, with ministers and members of the church. W. A. Layton, of the Brunswick arenue church, began the business of the day by announcing that the report after being examined was found correct. No mistake, he said, had been made in the adding up of the fig-

The Rev. Dr G. E. Reed, president of Dickuson College, was introduced to the Dickinson College, was introduced to the conference. He made an address in which he said that college students should not be given any unce privileges than other mea. If they made loafers of themselves they should be reprinted to deing so. Speaking of the different countries that had schools the speaker referred to Spain as adminable Spain.

The next speaker was the Rev. M. D. Buell, professor in the Boston University. Mr. Buell during his remaks said: If we find other countries that have the needle guns we should not only get the same kind, but better. We cannot fight with weapons that were used during the days of George Washington. Following Mr. Buells address the men who like successfully passed their examinations were given recognition by the conference. During the remarks of Bish-Mallalieu to the members he advised them to read books of action occasionally, but not to place too much rehance on the new papers.

PATRIOTIC PERVOR DISPLAYED. Madrid April 1. The display of patriotic fervor at the performance at the Royal Opera last aight was thisling. The

Maintal April I. The display of patriotic fervor at the performance at the Royal Opera back might was thadling. The essentialing numbered; about 3,000 persons at the Royal Opera back might was thadling. The Queen Regent, who was accompaned by the Princess of the Americans and the Infanta Isabella, was the object of repeated by atjons. Most of the comme Isabes, especially those belonging to the higher prinks of the aristocacy, wore cibinous of the national colors in their har. When the orchestra played the national hymn a wave of intense enhances where ever the assemblage. The Queen, the Princesses, and the ministers, the grandees, every one in fact, rose spantaneously and gave yent to a great shout of "Yara Benana, followed by loud shouts of "Long live the Queen!" The Ites the Queen! They the Queen! They the Queen! They the Queen! They shall be a principal musicans, painters mid artists of the country, while the orchestra was composed of the leading isnigers of Spain, with whom were grouped the principal musicans, painters mid artists of the country, while the orchestra was reinforced in middle the saids of the deciment two regiments of infantry independent in single file across the stage, and so appeared to be an endless body of men, whereupon the national harmor Then some one on the stage took down a flag from the wings of the stage and its opporated to the rational sharmor the stage took of the particular the stage, where the flag was waved aboft. This direct appeal to the national sentiment cooked a stupendous demonstration which seemed endless. At length fin Queen arose to leave and the orchestra played the royal march which caused the appliance of particularly cheered her majesty. As the the ovalion is and the michaeless of the occasion and the intensity of the particular thas a papear was leard against the United States.

The performance

FOR A COALING STATION Washington, April 1 Secretary Long has sent to Congress a report on the prohas sent to Congress a report on the project for the establishment of a naval conting and repair station at Pearl Har tor, Hawaii, submitted by Rear Admiral Miller; confunded in chief of the mand force of the Pacific station. As a tesuit of the stityeys and examinations under Admiral Miller says the capacity of Pearl Harbor as an auchorage for vessels of large size have been much exaggrated and that the government should acquire mossession of the whole of Warpio pentisular, comprising 800 acres of land if a station is to be located at Pearl Harbor. The price of the land as held by its present owners is a fictitious one, and unless improvements are made in Pearl Harbor the value would be probably less than \$50 per acre secretary Lobar recommends that Beckoning Pearl Harbor the value would be probably less than \$50 per acre secretary Lobar recommends that Beckoning Pearl Harbor the value would be probably less than \$50 per acre secretary Lobar recommends that Beckoning Pearl Harbor the selected as a site for the contemplated station on account of its promivity to East Loch, which has the largest such frage and as there is ample ensity built there and as there is ample space to dock vessels of any size. He believes the bar can be dreedged to a depth of 30 feet as in Honolulu and within the estimated sum of \$105,000. ject for the establishment of a naval

INSURGENTS WOULD AID. New York, April 1. It was said at the Cuban junta today that the insurgents Cuban junta today that the insurgeans were prepared to give material and to the United States should war be declared. "If the United States sent us arms and ammonition," an attache said, "we could raise our army to 60,000 mee, march on Havina and raze the cuty or storm the occupants into submission, or

WILL JOIN FLYING SQUADRON. Philadelphia, April 1. The cruiser Minneapolis passed New Castle, Del., at Minneapolis passed New Gastle, Del., at 5.32 P. M. She will probably proceed to sea without again stopping and in that event will join the flying equadron at Hamptou Roads tomorrow morning.

W. G. Treat, of Bangor, was in the city Sunday. Ellsworth has reason to remember Mr. Treat. He is the little half back of the Bangor high school football team who went around Ellsworth's ends so prettly for four tenchdowns. Oyes. Ellsworth remembers will it was one of the rare cases who live wished it was "our treat." Mr. The it is now entithe road for a Bangor Coldy firm.—

The state of the s

AMUSEMENTS.

The Spear Comedy Co. Next Week Spear's Comedy Company which will appear at the Opera House all next week at low prices, is undoubtedly one of the

best organized repertoire companies in the country, it is said. It has met with great success all of this season and the following criticism of a performance given by the company,taken from a Portland paper is among a large number which they have received:

which they have received:

The opening of the work's engagement of the Spears Comdey (empany was very successful in all particulars. Portland Theatre was packed, even to the standing toom, and the big audience thoroughly enjoyed one of the best framitic performances ver presented by a popular price repertoite organization. The company is a capable one in all departments, and is sure to meet with general favor. The play put on last evening, "A Royal Stave," was not only theiritorious drainabut it was staged in the best of shape. The specialties were all first rate and the orchestra is composed of good musiculars. We have not the space this morning to go moto details, and a general commendation into details, and a general commends nust suffice.

EVEN A PASTOR HAS HIS TROUBLES.

[Presque Isle Str-Herald]
For a long time Pastor Harbutt, of the Congregational church, has had his pa-tionee tried by by people making free use of the sheds connected with his church for tying up and feeding horses, and temporary storage of carts, wigons, sleighs, machinery, etc. They have been in the habit of coming Sunday and hitching terms under his speds and then at ending divine worship at some other sanctuary. It was not till last week. however, that he made open prote-', and that was when he came along one day and ound four hores unhitched from their sheds, and peacefully nunching dinner of hay and oats off the platforn in front of his church. The pastor then proceeded to hunt up the owner of of the teams and read the riot act to him.

THE RECOMMENDATION DISAR

PROYED.

New York, April 1. At today a session of the New York M. E. conference the recommendation of the east Maine conference providing for one delegate to the general conference for every sixty ministers in a district instead of one to 45, as at present, was disapproved by a vote of 159 to 28.

LAYMUN EQUAL WITH CLERGY-MEN. Camden, N. J., April 1. The New Jer

sey M. I. conterence in session here to day voted 110 to 55 that laymen should be admitted on an equal footing with clergymen as delegates to the general SENATOR QUAY'S RESOLUTION

Washington, April I. Senator Quay-eday offered a resolution in the follow-

ng terms: That the Committee on For-

eign Relations be and is hereby instructed to report on or before the 5th inst. a bill for the recognition of the repub-he of Cuba. It went over,

SENOR QUESADA SPEAKS. Washington, April I. "Spain has answered on the lines of its traditional pol-ity," said Senor Quesada, of the Cuban unta when made acquainted with Spain's reply. She will not answer directly, but always by dilatory and evasive replies so us to gain time, which is the ally, as Phillip II used to say, of her

diplomary.

Under no consideration except after recognition of the independence of the Caban republic, will the Cabans accept any armistice, whatever. There will be no suspension of hostilities on our partial our freedom has been assured.

"The next few months," he continued, are the favouable ones for our operations, we will pursue them vigorously while at the same time discars will way out half of the starved, disgrunded and discontented remains of the Spanish ermy from the island.

"The mere fact that the Spanish army from the island.

"The mere fact that the Spanish willing to even consider the idea of suspending hostilities with us," he continued, "is proof positive that they resognize not only our beligrency, but that they how they are already defeated"

THE PRESIDENT'S ENCOURAGE

Springfield, Mass., April 1. The following telegram was sent to President McKinley
Springfield Mass., April 1, 1898. Presdem McKinley, Washington, D. C.,
Reaching over obe milhon. American
farmers through one journals, we know
that they have migheit confidence in your
efforts to honorably secure Cuban independence without war. Do not be sweryed from this policy until satisfied of its
tanline. Should war be necessary farmers will rally as one man without distinction of section, politices or creed. With
equal unanimity will they support peace
with honor.
(Signed)

ANXIOUS TO SERVE.

New York, April 1. Secretary Kelly, of the National Volunteer Reserve, said today that by the first mail he received blanks filled out by persons who are anx-ions to serve under reserve in case of

These blanks were cut from newspa-pers throughout the country. Mr. Kel-ly said. "I wish all of the papers in the country would publish these blanks as it is impossible for us to send them everywhere and to everybody." The Maine fishing season opens normally on the 15th of April but the ice

does not go out of most of the good fish-

does not go out of most or the good hist-ing streams and lakes in Maine unti-some time later. There is little good front fishing in Massachusetts, the fa-vored regions being in the streams on the cape, in the bills about Barre and in the Berkshire Most of the tront streams are controlled by habing organizations, and many of these have been well stocked, so that those who are fortunate enough to belong to the clubs are likely to have good fishing. There is no un-usual demand for fishing tackle at this senson in Massachusetts the fishermer either being well supplied, or they are putting off buying until later in the season, when they will start for Maine or Upper New Hampshire streams. There are a few new files this season, and steel fishing rods are replacing to some extent the split bamboo, but the bamboo rod the split bambon, but the bambon rod possesses so much more elasticity than the steel rod that it will retain its popu-farity for fly fishing. The steel rod, how-ever, is light enough and well adapted to but fighting.

cial explained yesterday that this falling sway was due to the fact that more mem bership terms expired in March thus in any other month. In 18te manner, the New York State membership has falled away from 27,000 to 25,221.

ATHLETIC NOTES. Not satisfied with having apparently tween Cornell, Harvard and Yale at New London, and thereby having relieved a suffering college world, the managers of the crews have clashed once more over the date of the much-talked-of event.

F. A. Abell, treasurer, of the Brooklyn Base Ball Club, in company with President Ebbers, paid a visit to Allaire, N. J., on Monday, where the Brooklyn players are training under the supervision of Manager Barnie. Abell was particularly interested in the work of Jones at short deld. As at present constituted the Brooklyn team, according to Abeli and Ebbets, is at least 50 per cent stronger than that of last year, for they expect Jones to pan out in his new place and and thereby increase the batting ability of the team by making it possible to play both Lachance and Tucker.

In the lirst race \$5,000 will be for 11 for all 12 for 12 for 13 for 13 for 14 for 14 for 14 for 15 experts as Tenney, Doyle and Tucker, and he also believes that Hartman, the new third baseman, will leave Collins, Wallace and McGraw for behind in the So far as Grady, the new catcher, is concerned, the local magnate declares that he is unquestionably the best in the business, not excepting such tried experts as Bergen, Robinson, Petz and Zimmer. Freedman points with pride to the great pitching corps, and states emphatically that it is 'all over but the shouting." Meanwhile, the other teams in the lengue will try and worry along for the next best places ob-

taimble in the race.

In pitching the New Yorks are more formulable, as they possess a corps of twirlers who, for concentrated affectivement, not including uess will be hard to excel this year. The cranks, however, will go on speculating just the same, for base ball is conceded to be mighty uncertain.

A WOMAN'S VALUABLE AID.

The submarine boat, Holland, which is now being examined by experts with a view to its adoption by government, should it prove all that its inventor claims, owes its existence in a large measure to one of our summer guests, Mrs. Isaac Luwrence, of New York, says

Mrs. Lawrence, of New York, 8478 the Bar Harbor Record.

Mrs. Lawrence has been several times in Cuba this winter. She has seen the starving reconcentrados, and burns with patriotic zeal whenever the question of American intervention is discussed. When Mr. Holland was seeking about for some one to back him in his experiments with the submatine wonder that has been diving in the Killvon-Kull recently, he ran across Mrs. Lawrence. Here was her opportunity to help her country. She saw that the Holland boat, if it could be made a success, would furnish a new arm to the anvisa service more terrible than the monitor. She bought stock in the company—lots of it—and

stock in the company—lots of it—and talked it up so cloquently that a number of hor friends also invested in the company. Mrs. Lawrence is the heavest stockholder.

Fur her interest did not end there. She paid frequent visits to Perth Amboy, where the little vessel was building, and watched the progress of the work with keen eyes. She is the only woman that has ever been allowed on board.

Mrs. Lawrence is a popular young matron of society. She was Miss Lee Gwynn, and is a daughter of the late Nicholas Gwynn, from whom she inherited a large fortune. Mr. and Mrs. Lawrence have spent several summers at Bar Harbor and at Sorrento.

CRISP CLIPPINGS.

Dauville, Ind., has a young man of 18 who has had more matrimonal experiany much-murried man of Cheago. His name is Benson man of Cheago. His name is Benson! Liggers. His first wife, whom he nurried in March of last year secured a divorce. Eggers then took aunthor wife, but sho left him, and, thinking her dead, he married a third time. Then No. 2 arrived and sned for a divorce, and the union with No. 3 was declared null and void. He became tegally separate from No. 2 and has just married No. 3 again.

with No. 3 was declared bull and void; the beaume tegrily separate from No. 2 and has just married No. 3 again.

Cliel's employed in the crape industries are under a curious contract not to engage in any housework after their hours of labor. The reason is lest their hands should become course and unfitted for the delerate nature of their employment.

Grasshoppers attain their greatest size in South America, where they grow to a spread out five methes.

The national beverage of the Japanese, known as "aske," a rich wine has been breved in that country for more than 2.000 years. It contains between 14 and 16 per sont, of alchohol about five times as much as the Bevarian beer.

The American Live Stock Company of New York has for years been sending cattle and horses jucks and swine to South America. It has sent a number Jersey Shorthorns and Holsteins to Venezuell, and not long age shipped a flock of Southdown sheep to ex-President Joaquan Crespo of that republic. Poland-Chins are seemingly better liked there than any other breed of swine. Increasing shipments of swine for thereasing shipments of swine for the republic of Honduras from New York. Shipments of cattle, horses and swine for the Pacific coast have gone from California, but nore might be done in horses by a little effort. In all of the countries from Mexico, south to Peru there are taw stallions of good size, form and action.

In Sierra Nevada Divide, southeast of Saccamento, the South Yuba Water Com-

and action.

In Sierra Nevuda Divide, southeast of Sacramento, the South Yuba Water Company operates an irrigating system comprising 19 storage basins, 13 distributing reservoirs and over 400 miles of canals. At various points on these canals are "drops" or falls. The most important one of these is one with a 444-foot fall.

NEW CORPORATION

The Co-operative Investment Co. has been organised at Portland for the parbeen organised at rotation of the per-pose of purchasing and dealing in rest estate and stocks, bonds and other secur-ties with \$100,000 capital stock, of which \$30 has been paid in. The officers are: President, William P. Carr, of Portland; restricted Harry La Webber, of Port-is pd. Certificate approved March 30, 1838. BROWN VS. BEAN.

Settled in Favor of the Complainant, On Friday forenoon in the library at the Court House the case of Brown vs. Bean, in equity, before Chief Justice Peters was finally settled. The chief justice ruled in favor of the complainants, and accepted the report of the master who first heard the case, Matthew Laughlin, Esq.

The case was a bill in equity between Byron B. and Ann E. Brown, and Willlam M. Bean, all of Oldtown. The cause of the action lay in a note of the city of Oldtown for \$1,700, pledged as security by the Browns to Bean, of an other note of \$550. A receipt given by Mrs. Brown to Bean, the defendant, figured prominently in the case, which has been hanging for many months. The bill in equity was brought to redeen the note, cialmed to be the property of Mis

P. H. Gillin, Esq., and J. F. Gould. Esq., were for the complainant, and G. K. Sewall, Esq., and F. H. Appleton, Esq., for the respondent.

The respondent, Bean, contended that the \$1,700 city note was holden as collateral security for other notes which he the league pennant has already been won has against Byron B. Brown. After a full hearing before the chief justice. the latter decided in favor of the complainants: That the \$1,700 note was holden only as collateral security for the payment of the note for 8550, and that he receipt which Bean obtained from Ann Brown was obtained by fraud and found correct.

MAINE BRICK INDUSTRY.

Maine is a great State for bricks, and millions are made about Bangor and other places in the State annually. "It is a good thing for the brick industry of the United States," said a leading manufacture. turer, "that competition is ent off about every 100 unles. It is not profitable to ship bricks by train any further than that distance. This gives buckmakers a chance to cover their own territory and cover it well. For the same reason brick capuot be exported. "The brick industry is divided into spe-

cial lines just as other industries are divided in this country. One factory makes varied brick for paving another turns out sewer brick and others building brick or ornamental brick, light colored springing up everywhere, but the great est recent advances in the United States have been in vitrified brick for paving purposes. The present output in the United States does not nearly equal the demand. Brick for paying in 1897 con tracts were shipped as late as January 15. last, and several large contracts, for instance, in Philadelphia went over simply because the contractors were unable to get the brick in time. The West is still the great stronghold of the varified brick industry, the leading centres being Caston, O., and Galeshurg, H. This industry has developed 500 per cent. In the last ten years. Vitriked brick are made by machinery. Brick pasting is put down at from \$1.34 to \$1.75 per square yard. "The manufacturers of building brick are also busy. The year 1897 was very good and there are very few hard brick on hand anywhere. The tendency of the trade is toward cheaper prices all along the line. Possibly the largest building the trade is toward cheaper prices all along they made 30,000,000 bricks last year. We believe the machine made brick is superior to the hand-made because it is harder and ought to wear better. Pennsylvania alone turned out 453,000,000 building brick in 1897, worth about \$6,017,778.

"THIFF" ALL AROUND.

"TUFF" ALL AROUND. [Rass Harbor Cor. Ellsworth American.] The individuals of this town who "asof them would knock their honest ambitions dead—are to meet in our palatial school building on the west side next Monday and spell and parse and figure and if they can pass a credible evamination, atting on those benches, and walking over that floor, and gazing at those walls and cestings, they will have courage and nerve enough to reach a pack of monkeys in a n African jundle. We believe in environment as an educational factor; we feel better when the set shines. Chabitren feel better, act better, learn from and are better when selool roome are next and pretty. We send our children from next and tidy homes into school buildings that some western farmers would think hardly fit to raise a litter of pigs in. We think our school board is putting the teachers to a severe test to short with.

SIEASON OF ENGLISH OPERA. f them would knock their honest ambi

SEASON OF ENGLISH OPERA. Everything points to the great success of the senson of English opera announced by Mr. Engene Thompkins to begin at the Boston Theatre on Easter Monday, April 11. The extraordinary cast of leading singers has attracted much attention. Not the least important, in like fashion, Not the least important, in like fashion, is the list of operas announced—on the one hand, the selected master works of the best known writers of grand opera, and upon the other a series of operatic gens which have not been heard in Boston for many years. It is the plan of Mr. Thompkins to present each week a light and a grand opera, the one alternating with the other. Most important in the general scheme is the scale of prices which Mr. Tmopkins has adopted, and which of no time will be deviated. in the general scheme is the scale of prices which Mr. Tmopkins has adopted, and which at no time will be deviated from. The entire orchestra will be reserved at 75 cents, the orchestra circle will be 50 cents, the first balcony 50 cents, the family circle 25 cents, the gallery price will be 25 cents, and the general admission will be 50 cents. The subscription list has been growing steadily for the last week, and the list embraces norly all the foremost names in Boston's musical, literary and artistic circles.

Hymn ... For several years bluebirds have been very scarce in New England, and capecially in Maine. East year only a few of them were seen about here. But this year they have suddenly appeared in large numbers, full of their old-time large numbers, full, of their old-time mirth and sprightliness, and making the sky pole in comparison, by the flashes of brilliant blue from their backs and

The state of the s

ASSISTANT ASSESSORS.

Confirmed by the Municipal Of-ficers on Friday. The Municipal officers met on Friday afternoon to act upon some matters of business. The following list of assistant best organized repertoire companies is assessors was submitted to them by the assessors and confirmed by the board:

Wand One—Daniel M. Clark.
Wand Two—John C. Haney.
Ward Three—John F. Foster.
Ward Four—Harden G. McCurdy.
Ward Five—James F. Maldney.
Ward Six—Frank S. Trickey.
Ward Seven—Arthur M. Libbey.
The amplication of Frenk Sheafer

tween Spain and Ciba might cease and that the sufferings might be brought to a close and praceful relations be brough about. Preseding the prayer in the thurch the Rev. G. E. Strobbidge conducted prayer services in the Sunday school room. When Bishop Malhalieu took his seat on the platform the church was comfortably filled with ministers and manufactured the deliber. W. A. Latton. members of the church. W. A. Layton of the Brunswick avenue church, began the business of the duy by announcing that the report after being examin found correct. No mistake, he said, had been made in the adding up of the fig-

heen made in the adding up of, the figunes.

The Rev. Dr. G. E. Reed, president of
Duckinson College, was introduced to the
conference. He made an address in
which he said that college syndents
should not be given any more privileges
than other men. If they made loofers of
themselves they should be reprimanded
for doing so. Speaking of the different
countries that had schools the speaker refored to Spain as dimmable Spain.

The next speaker was the Rev. M. D.
Buell, professor in the Boston University. Mr. Buell during his remarks said:
"If we find other countries that have the
needle guns we should not only get the
same kind, but bettur. We cannot light
with weapons that
were used during
the days of George Washington."

Following Mr. Buell's address the men
who had successfully passed their exammations were given recognition by the
conference. During the remarks of Bish
Mallalieu to the hemiliers he advised
then to read books of fiction occasionalt, but not to place too much reliance on
the new-papers.

PATRIOTIC FERVOR DISPLAYED. Madrid April 1. The display of patri-otic fervor at the performance at the Royal Opera last night was thrilling. The

Madrid April 1. The display of patriotid fervor at the performance at the logs of opera last night was thrilling. The assemblage numbered about 3,000 persons. The Queen Regent, who was accompanied by the Princess of the Australias and the Infantas Isabella, was the object of repented devations. Most of the younger ladies, especially those belonging to the higher ranks of the aristociacy, wore ribbons of the national choice in their hair. When the orthestra played the national bymp is wave of intense outlinessam swept over the assemblage. The Queen, the Princesses and the ministers, the granders, every one in fact, loss spontaneously and gave yent to a great shout of "Yra Bapana," followed by fold shouts of "Long live the Queen!"

"Iong Live the Queen!"

On the stage the chorus was composed of the leading singers of Spain, with whom were groupfd the principal musicians, painters and aritists of the chuntry, while the ordiestra was reinforced by inflitary bands in full uniform.

In the midst of the excitement two regulations of infantry marched in single file across the stage, and iso appeared to be an endless body of men, whereupon the functional anthem was again sung and the audience chambered for the national bunaer. Then some one jon the stage took down a flag from the wings of the stage and it was hoisted on high by a group of artists, who bore it to the middle of the stage, where the flag was waved aloft. This direct appeal to the national sentiment evoked a stupendons demonstration which seemed endless. At length the Queen arose to leave and the orchestra played the royal march which caused the applause to recommence, all the ladius joining in it, accaiming the Queen under the oreas and the orchestra played the royal march which caused the particular continued the Queen was connected as the majesty. As the the ovation continued the Queen was connected to scrut to the front of the royal box half a dozen times and bow her acknowledgements of the applause. Her majesty was unable to conceal her embled to scrut

FOR A COALING STATION.

Washington, April 1. Sceretary Long has sent to Congress a report on the project for the establishment of a navall coaling and repair station at Pearl Harbor, Hawaii, submitted by Rear Admiral Miler, commander in chief of the mand force of the Pacific station. As a result of the surveys and examinations made Admaral Miller says the supacity of Pearl Harbor as an anchorage for vessols of large size have been much exaggerated and that like government should acquire possession for the whole of Wanpio pennisular comprising 800 acres of land, if a station is to be located at Pearl Harbor. The price of the land as held by its present owners is a fictitious one and unless improvements are made in Pearl Harbor the value would be probably less than \$50 per acre.

Secretary Long recommends that Beckoning Point be selected as a site for the contemplated station on account of its promixity to East Lock, which has the largest anchorhac, as dry docks may be easily built there and as there is ample space to dock vessels of any size. He believes the bar lean be dredged to a depth of 30 feet as in most \$105,000. FOR A COALING STATION.

INSURGENTS WOULD AID. New York, April 1. It was said at the Cuban junta today that the insurgents

Caban junts today that the insurgents were prepared to give material sid to the United States should war be declared. "If the United States sent us arms and ammunition." as a statche said, "we could raise our army to 60,000 men, march on Havanks and raze the city or storing the occupants into submission." WILL JOIN FLYING SQUADRON. Philadelphia. April 1. The cruiser Minneapolis passed New Castle, Del., at 5.82 P. M. She will probably proceed to

sea without again stopping and in that ovent will join the flying squadron at Hampton Roads tomorrow morning. W. G. Treat, of Bangor, was in the city Sunday. Ellsworth has reason to remember Mr. Treat. He is the little half back of the Bangor high school footbell team who went around Ellsworth's cuda so prettly for four touchdowns. O, yes, Ellsworth remembers 18mi it was one of the race passes when we wished it was "our treat." Mr. Treyt is now the road for a Bangor candy firm.—

Ellsworth American. AMUSEMENTS.

The Spear Comedy Co. Next Week Spear's Comedy Company which will appear at the Opera House all next weel at low prices, is undoubtedly one of the the country, it is said. It has met with great success all of this season and the following criticism of a performance given by the company, taken from a Portland paper is among a large number which they have received:

Waid Six—Frank S. Trickey.
Waid Six—Frank S. Trickey.
Waid Six—Frank S. Trickey.
The application of Frank Shea for an intelligence office was referred to the chief of police.
There being no further business the meeting adjourned.

OPENING OF NEW YORK EAST
CONFERENCE.

New York, April R. The Rev. W. T.
Hill at the opening of the New York East Conference, Brooklyn, today prayed that the relations now existing between Spain and Collar might cease and that the sufferings inheal the brought to a nust sufficé.

> EVEN A PASTOR HAS HIS TROUBLES.

[Presque les ste-llerald]
For a long time Pastor Harbuth, of the
Congregational church, has had his paience tried by by people making free use tence tried by proople making free use of the sheds connected with his church for tying up and feeding horses,—and temporary storage of carts, wagons, sleighs, machinery, etc. They have been in the habit of coming Sunday and hitching teams under his cheds and then attacking this proposition at some other. ending divine worship at some other sanctuary. It was not till fast week, lowever, that he made open protest, and hat was when he came along one day and 'ound four horses unhitched from heir sheds, and peacefully munching a dinner of hay and oats off the platform in front of his church. The pastor then proceeded to hunt up the owner of one of the terms and read the riot act to him

THE RECOMMENDATION DISAR-PROVED.

New York, April 1. At today's session of the New York M. E. conference the recommendation of the east Maine conference providing for one delegate to the general conference for every sixty muisters in a district instead of one to 45, as at present, was disapproved by a vote of 150 to 28.

LAYMEN EQUAL WITH CLERGY Camden, N. J. April 1. The New Jer sey M. El conference in session here to-day voted 140 to 65 that laymen should be admitted on an equal footing with clergymen as delegates to the general SENATOR QUAYS RESOLUTION

today offered a resolution in the following terms. That the Committee on Foreign Relations be and is hereby instructed to report on or before the 5th inst.
a bill for the recognition of the repubhe of Cuba. It wend over,

Washington, April 1. Senator Quay

SENOR QUESADA SPEAKS. Washington, April 1. "Spain has an swered on the lines of its traditional polcy," said Senor Quesada, of the Cuban junta when made acquainted with Spain's reply. She will not answer do rectly, but always by dilatory and eva sive replies so as to gain time, which is the ally, as Phillip II used to say, of her

recognition of the independence of the Cuban republic, will the Cubans accept any armistice, whatever. There will be no suspension of hostilities on our part until our freedom has been assured. "The next few months," he continued, "are the favorable ones for our operations; we will pursue them vigorously while at the same time disease will wipe out half of the starved, disgranded and discontented remnants of the Spanish army from the island.

"The mere fact that the Spaniards are willing to even consider the idea of suspending hostilities with us," he continued, "is proof positive that they recognize not only our heligerency, but that they know they are already defeated." recognition of the independence of the

THE PRESIDENT'S ENCOURAG-

Springfield, Mass., April 1. The following telegram was sent, to President Springfield Mass., April 1, 1898. Pres-

Springfield Mass. April 1, 1898. President McKinley. Washington, D. C.:
Reaching over one million. American fairness through our journals, we know that they have implicit confidence in your efforts to honorably secure. Cuban independence without war. Do not be swerred from this policy until satisfied of its failure. Should war be necessary farmers will rally as one man without distinction of section, politices or creed. Withenal unanimity will they support peace with honor.

(Signed) (Signed) Herbert Myrick, Editor New England Homestead.

ANXIOUS TO SERVE.

New York, April 1. Secretary Kelly of the National Volunteer Reserve, said today that by the first mail he received than two hundred enlistment blanks filled out by persons who are anxious to serve under reserve in case of

war.

These blanks were cut from newspapers throughout the country. Mr. Kelly said: "I wish all of the papers in the country would publish these blanks as it is impossible for us to send them everywhere and to everybody." The Maine fishing season opens nor melly on the 15th of April but the nee does not go out of most of the good fish-lng streams and lakes in Maine until

some time later. There is little good trout fishing in Massachusetts, the fa-vored regions being in the streams on the case, in the hills about Barre and in the Reckshire. Most of the trout streams are controlled by fishing organizations and many of these have been well stock-ed, so that those who are 4 fortunate shough to belong to the cinbs are likely to have good fishing. There is no unusual demand for fishing tackle at the sonson in Massachusetts—the fishermer season in sussemments are businesses either being well supplied, or they are putting off buying until later in the season, when they will start for Maine or Upper New Hampshire afreams. There were now first this season and steel are a few new files this season, and stee are n few new files this season, and steel fishing rods are replacing to some extent the split bumboo, but the bumboo rod possesses so much more clasticity than the steel rod that it will retain its popularity for fly fishing. The steel rod, however, is light enough and well adapted to belt fishing.

Stomach

Stomach trouble is the common name applied to a derangement of the system which is keenly felt but. vaguely understood. It may mean inability to retain food or to digest it. It may mean nausea, pain after eating, fullness, inordinate craving for food, or entire lack of appetite. Whatever it means, there's trouble, and it's with the stomach. If you have stomach trouble, you will be interested in this letter from a

man who had it and was cured by Sarsaparilla

For nine years I suffered from stomach trouble. I tried the sid of the best doctors of Philadelphia and Pittsburg, and spent large sums of money, all in vain. One day while waiting a train in Bellaire, O., I picked up a paper with a notice of Ayer's Earnaparilla. I got one bottle to try it. It did me so much good that I purchased from more bottles. I took four of them and gained in flesh; my appetite improved, and now I can eatharything. My stomach is all right, the slock to the une of Aver's Barmaparilla."—Calvin M. Brevers, University. Pa.

Personal Mention. ă------ă

Misses Adeline Wing, Agnes W. Bragg, Louise Higgins and Miviam D. Dole have arrived home from Smith College to spend the Easter recess.

Mr. and Mrs. Robert McWilliams and three children and maid, are at the Pe-nobscot Exchange for a day or two. They came from St. John. N. B., and are

Engenc F. Jenkins, who was severely injured in the Maine Central wreek at Orono on January 29, is able to be about with the use of crutches at his home in Vancebovo.

Mrs. J. B. Plommer, of Boston, is the guest of Mrs. Russeque at the Hayward. Conductor John Enpea, of the Maine Central railroad, went to Skowhegan Friday for a few days.

Miss Cora L. Gilpatrick. of Northeast Harlor, is visiting Mrs. W. L. Maxey at Mr. Ccell Hooke, of the reportorial staff of the Kennelsee Journal, was in Banger on Friday.

Mr. F. H. Adams, of Garland, is in the

city.

Mr Hanson Gray is ill at his home on Union street.

Mr. R. H. Pomroy arrived home on Friday noon from Ashland. Capt. W. S. Higgins has returned from a business trip to boston.

Mr. N. H. Fay, of Fay & Scott, of Dexter, was in Bangor on business Fri-Mr. Henry W. Cushman, of Elisworth, was in the city yesterday.

"Fonetic."

We should never accustom ourselves to saying that an article was "mad in Jermani" or "mad in Frans." Nor is it Jernahi" or "mad in Frans." Nor is it necessary that we should. I have always thought the spelling reformers mistock the conditions of the problem. Our spelling may be creatie, but the printed word is a kind of visual cohater. We learn to recognize it and to spell it by the eye. How often do we feel that a word looks wrongly spelled? Words have to be taken en bloc, and it would be exactly the same with the "fonetic" monstrosties proposed as their substimonstrosities proposed as their substi-tutes. In reading we never got at the sense of a word by spelling it, and "cough" and "plough," although theo-retically anomalous and incongraous, present no practical difficulty. Still, present anomaious and incongrants, present no practical difficulty. Still, spelling might in certain cases be simplified with advantage. "Program" and "jewelry" are better than the accepted forms "programme," "jewellery."

At present English is like a luxuriant

garden running wild. It needs trimming and weeding. - Academy.

The women artists whom the three prominent art institutions of New York are turning out yearly are taking their places among illustrators and colorists of the day and winning acknowledg-ments of their ability. In some branches their work is liked even better than that of men, as the touch is lighter. But the charge of a lack of humor in the fembine mind is made here as elsewhere. A woman cartomist or carica-turist has, so far, not appeared. It has been suggested that a certain coarsenes necessary in the treatment of such pio-tures may have been the reason women have not tried to acquire the knack of

making them.

at its stated convention on Friday evening, cenformed the third tank, which was followed by a supportant entertainment.

The Piving Vankee, due in Bangor at 12.75 P. M., from St. John, was three hours late bridgy on account of the Capital and its Friday on account of the Capital and its Friday on account of the Capital and the Guest Chamber. John 13: 2.35. Luke 23: 24-30.

The day, In the Garden, Matt. 26: The day, In the Garden, Matt. 26: The day, In the Garden, Matt. 26: Wednesday, In the Ga Mès Lijian Lees.

Following Miss Willard's Plan-The general officers of the National

Journal.

At the meeting of the State Board of Woman's Christian Temperance unions of the Antenneau mainty severa and from the Antenneau mainty severa and from the present hands an injurious drads, especially for me vens people.

No death for never people.

No death for success the whom you remain the people of the National Woman's Christian Temperance unions to carry out the plan of their late lead-selected success of Mr. McCowille, of Bangor, and discussed by the convention. Resolved. That it is the sense of the State Boards of Trade at their regular scalar mutal convention, in the city of Portland. place the same upon interest.

Siomach Trouble

Stomach trouble is the common name applied to a derangement of the system which is keenly felt but vaguely understood. It may mean inability to retain food or to digest it. It may mean nausea, pain after eating, fullness, inordinate craving for food, or entire lack of appetite. Whatever it means, there's trouble, and it's with the stomach. If you have stomach trouble, you will be interested in this letter from a man who had it and was cured by

Sarsaparilia

For hime years I suffered from stomach trouble. I tried the aid of the best doctors of Philadelphia and Pittsburg, and spent large sums of money, all in vain. One day while waiting a train in Bellaire, O., I picked up a paper with a notice of Ayer's Sarcaparilla. I got one bottle to try it. It did me so such good that I purchased five more bottles. I took four of them and gained in flesh; my appetite improved, and now I can est saything. My stomach is all right, the short of the use of Aver's Barraparilla. —Calyman & Sraversa Unio-own, Pa.
